GAME DESIGN DOCUMENT (GDD)

Project: Road Side Dosa (Indian Horror Game)

Platform: Roblox (PC Optimized)
Genre: Horror / Survival / Management Simulator
Art Style: Realistic High-Fidelity

1. EXECUTIVE SUMMARY

Road Side Dosa is a psychological horror management game. The player takes on a 5-night shift at a roadside Indian eatery (Dhaba). While cooking and serving customers, the player must follow specific, cryptic rules delivered by the owner via phone calls to survive supernatural anomalies.

2. CORE GAMEPLAY

MECHANICS

- **The Cooking Loop:** * **Fridge:** Retrieve Dosa batter.
- **Tawa (Griddle):** Interactive cooking station.
- **Serving:** NPC Dialogue System for Dosa flavors, Soda, and Ayran.
- **The Defense System:**
- **CCTV Monitor:** Functional UI to monitor the road and shop exterior.
- **Mechanical Shutters:** Clickable prompts to close the shop front/ windows.
- **Gaze Timer:** Looking at "Cursed" objects (like the Truck) for >5 seconds triggers a death state.

3. THE 5-NIGHT LEVEL DESIGN

Night
Communication
1st day shift
Manager is informing via mobile
New Menu Item
Special Rule / NPC Event
Soda
Chinese Guy (Hat): Serve ONLY Soda. Do NOT serve Dosa.

Night 2
Mobile Phone ringing same manager giving rules
New Flavor added
Terrifier Truck: Do not look at the truck for more than 5 seconds.
*might happen *
A naked guy will come and throw something and run away. We need to clean it.

Night 3
Mobile Phone
Ayran added
Saree Woman: Serve her, but do NOT look at her face/eyes.

Night 4
Mobile Phone
New Flavor
A guy dance while asking Do not serve.
Terrifier Truck comes please : Close all windows.

Night 5
Mobile Phone giving instructions again "Soothu Dosai"
A guy cones with a name Suthan printed in his shirt. Asks for "Soothu dosai" to do: Spill batter on his head. Turn off lights/run from him.

4. TECHNICAL & VISUAL REQUIREMENTS

- **Environment:** A small, high-detail restaurant interior. The exterior road must be visible but inaccessible.
- **Lighting:** Must use **Roblox Future Lighting** for a realistic, dark, and moody atmosphere.
- **NPC System:** Needs a dialogue system and custom animations (Dancing, Shaking Head).
- **Global Systems:**
- **DataStore:** Saves currency ($150/sale) and Night progress.
- **Leaderboard:** Global "Top Chefs" based on total revenue.
- **Trading:** Player-to-player item trading for skins/items.

5. MONETIZATION (ROBUX PRODUCTS)

- **Anomaly Identifier (250 R$):** A tool to highlight ghosts on the camera.
- **Jumpscare Friend (100 R$):** Remote trigger to prank another player in the server.
- **The Gun (350 R$):** Defensive weapon for Night 4 and 5.
- **Humanity Serum (500 R$):** Instantly turns an anomaly back into a human NPC.

6. DEVELOPER ASSIGNMENTS

- **Scripter:** Night/Rule system, NPC AI, Proximity Prompts, and UI logic.
- **Builder:** Realistic Dhaba/Restaurant with high-quality PBR textures.
- **Modeler:** Custom NPCs (Chinese Guy, Saree Woman, Suthan, Ice Cream Truck).
